# SUN SMART POLICY

A reminder that as the weather begins to warm up the UV rating will increase and sun protection will be increasingly important. We have reviewed our Sun Smart policy with the view of increasing student awareness of the UV rating and reasons why it is important to be Sun Smart. Our policy states that students must wear hats in terms 1 and 4, however it has been great to see an increase of hats over the past few weeks with students understanding how they need to look after themselves.

All students will need to be wearing hats from week 1 term 4.

# IMPORTANT FINANCE NEWS

## Material & Service Fees 2023

Your child's Material & Service Fees were due on April 7th 2023.

All outstanding invoices have now been forwarded to Central Debt Recovery.

Once DfE Recovery Service processes the school's claims you will not be able to pay your fees here at school and it will be more difficult for you to organise payments.

Please consider this fact for 2024 and organise a payment plan with us if you have difficulty paying. Small weekly/fortnightly payments are welcome.

## Material & Service Fees 2024

Final approval of the School Material and Service Charges was approved at the Governing Council Meeting 23rd October 2023.

The M&S Fees for 2024 will be \$287.00 which is an increase of \$18.00. The M&S Fees also incorporate the Reception to Year 5's swimming fees. The Year 6 component assists with the Camp subsidy.

Please Note: If your child/ren do not attend the swimming or camp the component of M&S will still be used to support these activities.

Invoices will be sent home early next year.

School Card applications must be applied for every year and submitted ONLINE.

2024 will be available from late January.

No paper applications will be accepted by the Department except for Change of Circumstances, Hardship or Reassessment.

To assist you with your online application a staff member will be available at the front office from the 29th January 2024.

This support will continue throughout term 1.

Please ensure you bring your Centrelink details (CRN numbers) with you.

We understand some parents do not have access to technology or have limited understanding of the English language and of departmental procedures. Please do not hesitate to use our access and support to ensure your School Card application is lodged and processed in a timely manner. We would prefer that School Card applications be lodged before the end of Term 1 2024.

# AROUND THE CLASSROOMS

## HEALTH, PE, SCIENCE

This term for Health we have been learning about goal setting; learning to set short and long-term learning goals that we can achieve in the upcoming weeks. We have also revisited our sun smart unit, going through our sun safety with our 5's of slip, slop, slap, seek, and slide and the reminder of wearing our hats out in the yard to protect ourselves during the warmer months in the lead up to summer.

In PE we have been participating in the Yulunga Indigenous games playing different variety of games involving running and dodging, ball rolling and aiming at a target and striking and fielding. This gave us the opportunity to learn about Aboriginal culture through the background stories of language and vocabulary that are explained before each game.

In science, we kicked off the term with chemical science in the form of a Coke and Mentos experiment which we loved. We have welcomed a new addition to science, our stick insects as our living thing in the science room. We have been excited to be learning fascinating facts about the stick insects like their behaviour, diet, habitat and life cycle as part of our biological science unit.

### DIGITAL TECHNOLOGIES

This term in Digital Technologies, students have continued to develop their knowledge of programming/coding through the use of robots and programming apps such as Scratch, Scratch Jr and Codementum. The Year 5/6 students have also started to use HTML coding to build functional web sites. All students have continued to use Makers Empire and the 3D printers to create a variety of designs, even a new house for the class hermit crabs (designed by Thea M – Year 2)!

On Thursday 26<sup>th</sup> October, the Year 5/6 students were given the opportunity to participate in the Bright Future STEM program. The students listened to a guest speaker (experienced in the field of engineering) and then worked in groups to complete five different practical activities: Dr Eureka (science board game), Turing Tumbles (marble-powered computers), electrical circuits (snap-circuits), engineering mazes, and Virtual Reality.
